Aims and scope

- *touchREVIEWS in RMD* enables time-pressured physicians to stay abreast of major advances and opinion in international rheumatology practice.
- *touchREVIEWS in RMD* comprises balanced and comprehensive articles, addressing the most important and salient developments in the field of rheumatology.
- *touchREVIEWS in RMD* endeavours to support physicians, clinicians and related healthcare professionals in continuously developing their knowledge, effectiveness and productivity. The editorial policy has been designed to encourage discussion among this peer group.
- Comprehensive bibliographies for each article mean that *touchREVIEWS in RMD* is an informative and valuable reference tool for use throughout the year.
- All articles are subject to peer review, and must adhere to the ICMJE, GPP 2022 and COPE guidelines.

Structure and format

- *touchREVIEWS in RMD* is a peer-reviewed, free-to-access, bi-annual journal comprising review articles, original research, case reports, editorials, expert interviews and practice pearls.
- The structure of each edition of the publication comprises section categories determined by the Editor. The degree of coverage assigned to each category is the decision of the Managing Editor, and in part reflects the views of the Editorial Board.
- All articles disclose any author financial and non-financial relationships and activities, along with any funding, financial support and medical writing assistance.
- Each edition of *touchREVIEWS in RMD* is published in full online at www.touchIMMUNOLOGY.com

Editorial expertise

touchREVIEWS in RMD is supported by various levels of expertise:

- Guidance from an Editorial Board consisting of leading authorities from a variety of disciplines in immunology.
- Invited contributors who are recognized authorities from their respective fields.
- Peer review: conducted by experts appointed for their experience and knowledge of a specific topic.
- An experienced team of Editors and Technical Editors.

Peer review

- On submission, all articles are assessed by the Editor to determine their suitability for inclusion and appropriateness for peer review.
- The Editor identifies at least two appropriate reviewers, who are selected on the basis of their specialist knowledge in the relevant area, following consultation with a member of the Editorial Board where necessary.
- We aim to have the final peer review decision within 4 weeks.
- Following review, papers are either accepted without modification, returned to the author(s) to incorporate required changes or not accepted for publication.

- The Editor reserves the right to accept or reject any proposed amendments on the advice of the Editorial Board and reviewers.

Submissions and instructions for authors

- The Editor commissions articles with guidance from the Editorial Board, and unsolicited articles are welcomed.
- The Editor is always keen to hear from authors wishing to discuss potential submissions and will give due consideration to any proposals. Please contact the Editor for further details: editorialmanager@touchmedicalmedia.com.
- Instructions for authors are available from the website: www.touchIMMUNOLOGY.com
